

# FARMERS WOULD BENEFIT THROUGH LINCOLN HIGHWAY

Audience at Booster Meeting at  
Elks' Temple is Urged to  
Assist in Movement by Chas.  
Bookwalter.

The first appeal to the citizens of South Bend and of the surrounding territory to make a subscription for the Lincoln highway was made Thursday night at a boosters' mass meeting at the Elks' temple when Charles Bookwalter, ex-mayor of Indianapolis, one of the original promoters of the new highway, urged the co-operation of everybody along the 3,500 mile route.

Besides Bookwalter, A. R. Pardington, president of the National Lincoln Highway association, talked, pointing out the magnitude of the project and proposing that South Bend rededicate one of her streets as the Lincoln highway. C. D. Frank, road engineer, gave an illustrated talk, mapping out the highway and showing the process of constructing by moving pictures. Fred Woodward presided. J. B. Stoll also spoke.

In response to an announcement that in several cities hotels, garages and public buildings were being dedicated in honor of the new road. It was announced that the former Smith garage on S. Lafayette st. will be known in the future as the Lincoln Highway garage. This is the first building of the city to be named after the new highway and the street to be used by the new road may be named for it.

**Should Interest Farmer.**

In his address, Bookwalter, particularly emphasized the need of interesting the farmer in the new road. "One whisper of a farmer in the ears of a legislator about this gigantic project is more potent than the siren sounds of all the automobile horns in the United States," asserted he. "The farmer is the solution in this proposition and he must be interested."

He pointed out the advantages to the farmer to be gained by the new road and asserted that it costs a farmer more to haul his produce to market over the poor roads than it costs to ship it to Liverpool. He showed that the value of land would be infinitely increased. That the automobiles that travel the gravel roads are driving them backwards faster than they can be rebuilt, was the statement of the speaker.

A need for a better constructed road which will be able to stand the wear of automobiles was the point urged and he said that concrete had been necessary to provide a substantial foundation.

He pointed with pride to the fact that the big project had originated with a Hoosier, Carl E. Fisher of Indianapolis, who had given large amounts of money as well as a great part of his time toward the scheme.

When the idea was presented to the citizens of Indianapolis the first night \$350,000 was subscribed, although every donor believed the big highway would not go through the capital city. Already a sum of \$3,500,000 has been raised for the construction by the long list of auto and business concerns as well as by individual business men, he declared.

**Network of Roadways.**

"After the completion of the Lincoln highway through South Bend," he asserted, "concrete roads of the same material will be constructed to this city from Indianapolis on the south, possibly from Detroit to the north as well as from numerous other points. It will not be long until northern Indiana is a network of solid concrete roads with South Bend a central terminal."

He said that when the road is completed it has been estimated that 100,000 automobiles will pass through South Bend over the new route the first year. It will be the greatest distributor of money of any source in the United States and will be more

## TUBERCULOSIS VICTIM REGAINS HEALTH

**MRS. H. F. SCHULTZE**

An astonishing story comes from DeBance, O., where Mrs. H. F. Schultze, living at 824 Harrison street, that city, is again enjoying good health after a terrible struggle with dread tuberculosis.

"About four years ago," writes Mrs. Schultze, "I took a severe cold, which resulted in pleurisy, from which I never fully recovered, having a very severe cough and a very high temperature with frequent attacks of pleurisy. I was confined to my bed the most of the time for a year. I treated with several doctors, also two lung specialists, who pronounced my case tuberculosis, and I also had an abscess of the lungs. A friend recommended Nature's Creation, and after taking several bottles am now feeling fine and have done all my household work for the past year. I gladly recommend Nature's Creation to all sufferers, as it certainly has done wonderful things for me.—Mrs. H. F. Schultze."

Do you or any of your friends suffer from tuberculosis (in any form), or any of the conditions which lead to it, such as asthma, bronchitis, impaired blood and run-down system? If so, write to-day for free booklet and learn of the wonderful results being accomplished daily by the use of Nature's Creation. This booklet is filled with testimonials and photos from local parties, and will be sent free of all charge. Address: J. L. Haymann, 421 State Life Building, Indianapolis, Ind.

**NUMBER OF IDLE NO  
LARGER THAN USUAL.**

CHICAGO, Dec. 19.—The number of workers out of employment this winter is not larger than in other years, according to the facts brought forward here Thursday in the deliberations of the heads of the labor departments of six states, meeting to plan co-operation in giving employment to surplus labor.

National labor laws and nationwide co-operation in meeting employment conditions are the chief objects of the meeting, it was said. This year's problem is the same as that of every year when winter shuts off many avenues of casual and regular employment, according to F. H. Hart, secretary of the Illinois labor commission, and chairman of the conference.

W. J. Leiserson, Wisconsin; Walter L. Sears, Massachusetts; Thomas Brawley, Indiana; James V. Cunningham, Michigan; John T. Fitzpatrick, Mo., and Mr. Hart were the labor department chiefs, who took part in the meeting, which will continue Friday.

Important to this city than the Lake Shore railroad, he said.

He paid a high tribute to the Oliver hotel, saying that it was the best in the state and that it would make the city a stopping off place. Interest in the project west of the Mississippi river, he said, is stronger than east of that line. Fisher's special touring car trip to the coast, last year, for the purpose of stimulating interest in the proposition, brought out scores of farmers who cheered the tourists as Hoosiers. Numerous points along the route will be named in honor of the band of Hoosiers who made the first trip to create interest in the highway.

**Project Large One.**

Pardington, in his address, declared that the project was the largest ever faced by the American people. He said that when the new road has been completed it will be the longest, bearing one name of any in the world. Over two-thirds of the 3,500 miles of the route has been marked off with the red, white and blue posts.

A special orchestra furnished music and the Lincoln Highway association, all parts of the country, over 300 people being present. Subscription cards were distributed to be mailed to the committee.

## AVIATORS ROUT MOORISH ARMY

Spanish Troops Victorious When  
Bombs Are Dropped on Enemy.

Many Killed on Both Sides.

MADRID, Dec. 19.—A large force of Moorish tribesmen was routed with heavy loss Thursday by the Spanish troops at Muley Absalam, Spanish Morocco.

Spanish military aviators threw the Moors into disorder with showers of bombs.

The Spaniards attacked the Moors with a brigade of sharpshooters, a battalion of infantry, four batteries of artillery and a large body of native auxiliaries.

When the order for the general advance of the Spanish column was given, the advance guard discovered several thousand Moorish mountaineers concealed in the irregularities of the ground.

A flutilla of military aviators was sent up to reconnoiter. By means of flag signals, the aviators guided the column of Spanish troops.

A heavy artillery fire was opened by the Spaniards without effect.

The aviators then ascended to an altitude out of range of rifle fire and flew directly over the places where the Moors were in the greatest numbers. Then came what the dispatch to the Spanish war office describes as a "veritable rain of bombs, tossed by hand by the airmen in the midst of the Moors."

After this bombardment the Spanish infantry charged with the bayonet and dislodged the Moors from their positions, causing them to flee in great disorder, leaving large numbers of dead and wounded on the field.

The Spanish troops also lost a considerable number of men, as the rifle fire of the tribesmen was very accurate.

**SHOWS THEIR VALUE.**

WASHINGTON, Dec. 19.—Experts in the signal corps at the war department heard the report of the successful bomb dropping by the Spanish aviators with keen interest. "This is another instance," said Col. Samuel Fisher, in charge of aviation in the army, "of the value of the aeroplane in actual reconnaissance and its use as a weapon of offense during an attack. It confirms the experience of other nations in using the aeroplane in actual warfare and is a practical demonstration of the use of the aeroplane in a campaign."

## SEEK CARDINAL'S WILL

Late Church Dignitary is Supposed to  
Have Made Document.

ROME, Dec. 19.—The coffin containing the body of Cardinal Rampolla, was closed Thursday with the solemn ceremonial of the sacred college. A testament was found dated 1889, but intimates of the late cardinal profess to know of the existence of a will dated some years later. In fact, the cardinal left a small key with a label on which was written: "This opens the black case containing my last will." The case, however, has not been found.

## LIGONIER MAN IS NAMED

Jessie L. Dunning Member of Hospital Trustee Board.

INDIANAPOLIS, Dec. 19.—Jessie L. Dunning, of Ligonier, named on Thursday by Gov. Ralston to succeed Charles W. Slick of Mishawaka, as a member of the board of trustees of the Northern Hospital for the Insane, his appointment runs for four years from Jan. 1.

**Stomach Troubles Disappear.**

Stomach, liver and kidney troubles, weak nerves, lame back and female ill disappear when Electric Bitters are used. Thousands of women would not be without a bottle in their home. Eliza Pool of Depew, Okla., writes: "Electric Bitters raised me from a bed of sickness and suffering and has done me a world of good. I wish every suffering woman could use this excellent remedy and find out, as I did, just how good it is." As it has helped thousands of others, it surely will do the same for you. Every bottle guaranteed, 50c and \$1.00. Recommended by all druggists.

## TWO FIGHT DUEL IN DIMLY LIGHTED BARN

Booneville Man Gives Neighbor  
Thirty Days in Which to  
Leave County—Battle Results  
When He Remains.

BOONEVILLE, Ind., Dec. 19.—In a dimly lighted barn on the farm of Charles Fisher, near here, the owner and James Houghland, a neighbor, early Thursday fought a revolver duel resulting in the wounding of Fisher and the arrest of Houghland.

Both men are prominent farmers. Fisher is 28 years old, and Houghland, 26 years old.

According to Sheriff Frank Phillips, who arrested Houghland the trouble started when Fisher accused Houghland of being too friendly with Mrs. Fisher and ordered him to leave the county within thirty days. The time expired last night.

Early Thursday Houghland hid in Fisher's barn and when the owner entered the place at about 4 o'clock, opened fire. Fisher returned the fire until wounded and he fell to the floor unconscious.

Sheriff Phillips found three revolvers which the men had used in the fight.

Fisher and Houghland have been neighbors for years and their domestic troubles started some time ago.

Fisher's wounds are not believed to be dangerous.

## SUFFRAGETS ATTEMPT TO DESTROY PRISON

LONDON, Dec. 19.—An attempt attributed to suffragets was made Thursday night to blow up part of the south-east wall of Holloway jail by the explosion of two bombs. These are believed to have been secreted in the garden of a house adjoining the jail. The part of the wall attacked was near the cells in which suffragets are usually confined.

Miss Rachel Peace, sentenced to 18 months' imprisonment for arson, is the only suffraget at present in the jail. It is alleged that she has been subjected to forcible feeding and at recent militant meetings angry references were made to her treatment, coupled with threats of revenge.

The explosion did no damage to the jail, but the surrounding high wall where it abuts on the garden was so badly damaged that it will need rebuilding.

**COSMOS BOTTLES.** Pints \$1.50. Quarts \$2.75. Guaranteed equal to any high priced bottle made at Coonley's.

**KILLS SELF AND WIFE.**

GARY, Ind., Dec. 19.—Peter Jurio, a detective of the police force here, Thursday night shot and killed his wife and committed suicide.
